Looking Back - Reaching Forward

JUMP-START YOUR GENEALOGY RESEARCH: BEGINNERS AND INTERMEDIATE WORKSHOPS

Date: Sunday, March 24, 2019

Time: 10:00 AM – 12:00 Noon – same time and location for both workshops

Location: Beth El Hebrew Congregation, 3830 Seminary Road, Alexandria, VA

BEGINNERS Starting with an introduction to Jewish genealogy, workshop leader and JGSGW past-president Gene Alpert will describe techniques and strategies for finding your family, as well as introduce a case study on putting it all together. Other experienced JGSGW members will present local & national resources and online sources.

INTERMEDIATE Already taken the Beginners Workshop? Ready to move forward? A professional genealogist will show you how to find and analyze evidence, proving the facts. JGSGW members proficient in DNA will help you to explore the science, select an appropriate test method, and then make use of your results.

Each participant will receive handouts and a guidebook on a flash drive! You're welcome to bring your laptop and connect to the wi-fi at the workshop. Both workshops will be repeated in the fall in Maryland.

The workshop is **free** for JGSGW members but advance registration is a must. Space is limited to twenty attendees in each workshop, so register **now** online. Non-members must join JGSGW online at jgsgw.org **prior** to workshop registration.

Be sure to plan to stay for the afternoon program: **1:00** Schmooze & discussion tables; **1:30** Program meeting

Reserve your space. Please provide your name and phone number.

Workshop registration email: jgsgw@jgsgw.org
